WE'RE NOT JUST ROOFING. WE'RE ROOFING ELEVATED.

Your roof may account for up to 40% of the visual surface area of your home's exterior. Just as upscale countertops can transform your kitchen, so too can IKO roofing products easily elevate your home from bland to grand.

Marathon Plus AR traditional 3-tab asphalt roofing shingles have stood the test of time. They remain an affordable choice for those who seek weather protection and color blends to compliment their home.

Cambridge laminated architectural roofing shingles are IKO's most popular among homeowners and roofing contractors. Their high profile and dimensional thickness will enhance the roofscape of any style of home.
