

Protect Your Build with the Right Underlayment

DW Stocks the Brands Your Customers Need

The foundation of any roofing project begins with choosing the right underlayment. Synthetic underlayments offer crucial performance benefits that traditional materials cannot match. Backed by leading brands and a range of price points to fit your budget, DW has the right product for your project.

Lightweight

Reduce labor time and costs with a product that is easier to carry and install

Durable

Synthetic materials are less likely to be damaged by foot traffic or sharp objects

Weatherproof

Withstand the elements including high winds, heavy rain, and UV exposure

Cost-Effective

Reduced maintenance costs and extension of the roof lifespan equal long-term savings

BUILDER GRADE

Reliable Protection for Budget-Friendly Projects

GOOD

Enhanced Durability for Added Confidence

BETTER

Superior Strength for Demanding Conditions

BEST

Ultimate Protection and Premium Performance

Compare Our Synthetic Underlayment Offering

ALL PRODUCTS ARE TDI APPROVED

OC Titanium UDL25
creates a layer of defense for the roof deck that's 14x stronger and 30% faster to install than #30 felt.

OC Titanium UDL30
supports the roof deck with a highly engineered, mechanically attached barrier 20x stronger and 30% faster to install than #30 felt.

OC Titanium UDL50
offers ultimate roof deck protection with a synthetic barrier that's 25x stronger and 30% faster to install than #30 felt.

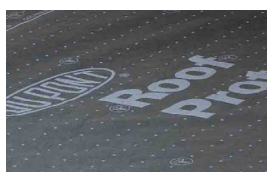

OC Titanium PSU30
protects against elements with modified rubberized asphalt ice and water barrier for all roof types.

OC RhinoRoof U20
supplies protection 12x stronger than #30 felt for superior wind resistance and durability through heavy foot traffic and adverse weather.

DRYline CoverPro 1000
is the best choice when the project demands the performance of synthetic underlayment and the cost of traditional felt roofing.

DuPont Tyvek Roof Protector
has high strength to weight ratio, ideal for steep slope roofing applications under shingles or metal cladding.

GAF FeltBuster
is a value-priced upgrade for typical asphalt felts that helps provide long lasting protection against wind-driven rain from infiltrating under shingles.
